CSE 326 System Analysis and Design Laboratory Laboratory 2

1. Convert the following class diagram into java code. Test the Employee class in Employeetest.java (This class has main method).

Employee
- id: int
- name: String
- salary: double
Employee()
Employee(id:int, name:String,salary:double)
+setId(id:int):void
+setName(name:String):void
+setSalary(Salary:double):void
+getId():int
+getName():String
+getSalary():double
+toString():String
