1. Convert the following class diagram into java code. Test the Student class in Studenttest.java (This class has main method).

⊟   **Student**
- id: int
- name: String
- cgpa: double
Student()
Student(id:int, name:String,cgpa:double)
+setId(id:int):void
+setName(name:String):void
+setCgpa(cgpa:double):void
+getId():int
+getName():String
+getCgpa():double
+toString():String
